Metered-Dose  
Topical Applicator

## Uno-Dose Metered Dose Airless Twist Dispenser

This is the industry's first metered-dose applicator that doubles as a compounding container. If using a mixing container, like an unguator jar, to mix a single 42ml or less prescription, Uno-Dose save you the cost of the mixing container, along with preparation time. These cost savings alone can result in a full return on investment.

To help better identify what products are in what dispensers, the Uno-Dose dispensers are offered in a variety of colors: White, Pink, Purple, Green, and Gray.

### Order Below:

#### Uno-Dose Applicator

COLOR	Box Size	PRICE	Order
